PREFINISHED DECORATIVE BATTENS, WALL BATTENS & BOARD

rethink
your design
environment

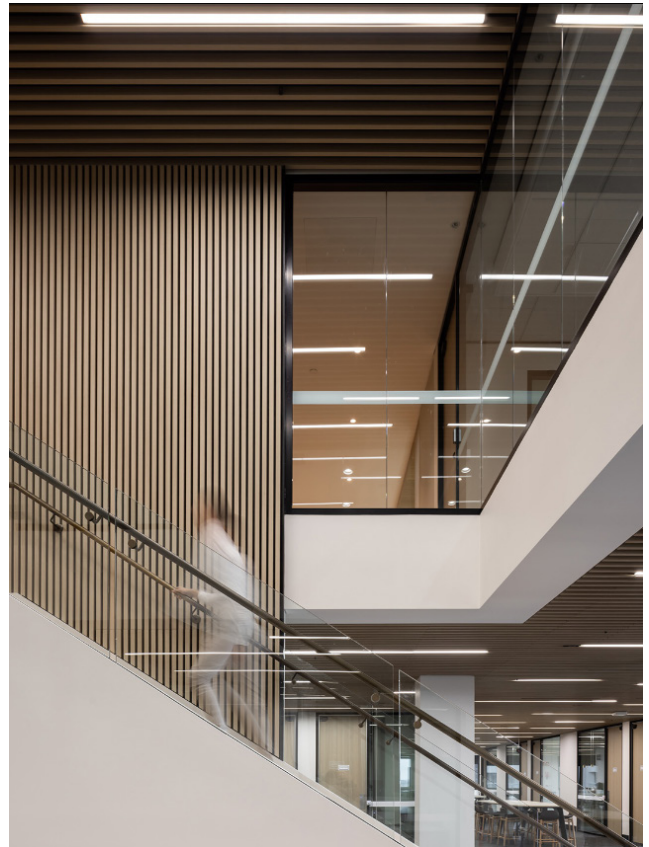

Imiwood introduces an exciting and cost-effective method of design using prefinished decorative battens. Presented in seven standard dimensions and a comprehensive range of decors Imiwood provides the authenticity and warmth of natural timber with the convenience of a ready to install decorative batten.

Our recent wall lining innovation adds a collection of tongue and groove battens that easily interlock creating eye catching 3D walls. Wall battens come in various profiles including flute, dome and batten.

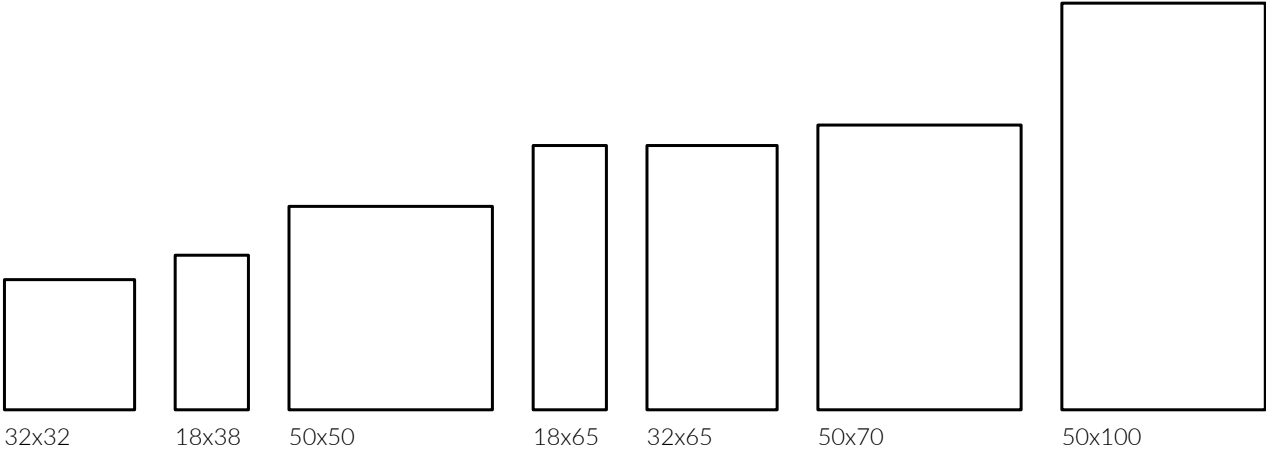

Imiwood range of decorative battens are manufactured in Australia using high quality overlays wrapped around an mdf e-zero substrate leaving only one seamless join. These overlays are pvc-free, environmentally friendly and abrasive resistant. Imiwood is the perfect timber alternative providing design continuity and a dimensionally stable product. Imiwood can be used in a variety of internal applications including feature walls, ceilings and screening.
